

# National Cancer Patient Experience Survey

Take part and help improve cancer services

## Step 1 Have you been invited?

If you are a cancer patient discharged between April and June, you will get an invite in the post.

## Step 2 Take part in the survey

There are three ways you can take part:

-  **On paper** and post your questionnaire back using the Freepost envelope.
-  **Online** using the QR code or weblink on your invitation.
-  **Phone** the free helpline. A translation service is available.

## Step 3 We will use your feedback to improve cancer care

Your answers are put together with the answers from other people who take part in the survey.

Nobody will be able to identify you in any results.
